SUMMARY

With 15+ years in software development, I've deep expertise, especially in JavaScript frameworks for front end work. Recently emphasizing 7 years on JavaScript, I seek remote Senior Front end roles focusing on Angular, React.JS or Vue.Js. Eager to contribute to a team valuing collaboration, education, and top-notch code.

EXPERIENCE

Senior Frontend Engineer
Norby   **April 2022 – Present, US, New York, Fully remote**

· Engineered a comprehensive UiKit component library and a Design System from the ground up using Storybook, facilitating rapid and consistent UI development across projects.
· Pioneered a landing page editor employing the custom UiKit components, improving efficiency and maintaining visual cohesiveness.
· Spearheaded the implementation of novel features, meticulously following requirements and Figma designs to deliver an engaging and intuitive user experience.
· Exhibited problem-solving prowess in debugging and resolving frontend bugs to ensure optimal site performance.
· Crafted detailed technical specifications to document system architecture and design decisions.

Senior Frontend Engineer
Test Gorilla   **December 2021 – April 2022, Netherlands, Fully remote**

· Led the execution of new features, aligning with requirements and Figma designs to enhance the user interface and overall user experience.
· Leveraged problem-solving skills to debug and resolve frontend bugs, ensuring optimal performance and reducing downtime.
· Conducted PR reviews to ensure code integrity, uphold quality standards, and foster a culture of continuous learning and improvement.

Senior Application Engineer
Swiss International Air Lines   **February 2019 – December 2021, Basel, Switzerland**

· Developed intuitive GUIs using Angular 8/9/10/11/12, HTML5, and SCSS, enhancing user interactions and improving user experience.

· Mentored and provided technical guidance to fellow developers regarding Angular, fostering a culture of knowledge-sharing and continuous learning.

· Cultivated a culture of code reliability and robustness by creating unit tests in both Angular and .NET Core.

Expert Applications Engineer – Software Architect
CloudWorks   **October 2014 – January 2019, Oporto, Portugal**

· Led a team of 5 developers, fostering a productive, collaborative work environment that encourages innovation and growth.

· Effectively collaborated with clients, product managers, and stakeholders to determine functional and non-functional software requirements.

· Monitored the development team's progress to ensure consistency with the initial design, facilitating timely product delivery.

Lead Software Developer – Senior Applications Engineer
Kiosk Zone   **July 2008 – September 2014, Oporto, Portugal**

· Developed and implemented specialized software solutions for the insurance industry, meeting industry-specific needs and improving operational efficiency.

· Provided technical guidance and mentorship to developers, fostering a culture of continuous learning and growth.

· Integrated systems using SOAP and REST webservices to facilitate seamless data exchange and system interactions.
